

Brief Specification of Second Hand Reducer band saw line consisting of following:

1. Log deck in two parts with 5 chains and hydraulic drive
2. Step feeder with 4 steps hydraulic driven.
3. Log haul conveyor with kick off system.
4. Butt end reducer type BRUKS RR 1000.
5. Log haul conveyor for transport in to infeed conveyor before debarking machine.
6. Infeed conveyor before debarking machine type REMILL 750.
7. Debarking machine type SÖDERHAMN CAMBIO 70-66 equipped with AirTen system and Cam Tools debarking tools.
8. Out feed guide work after debarking machine type REMILL.
9. Log haul conveyor with kick off system.
10. Cross conveyor for buffering of logs.
11. Log haul conveyor for transport in to infeed conveyor before 1st Band Saw group.
12. Log measuring scanner type SAWCO 3D.
13. Automatic log turner and infeed conveyor type ARI LT
14. Chipper canter Band Saw group no. 1 with Chipper Canter Söderhamn 15" and 2 Band Saws type AKE 245 – 1500.
15. Board separator after Band Saw group.
16. Cross conveyor for transport of side boards to Board Edger Line.
17. Automatic Edger Line type Söderhamn Autopos 3 with Edger Söderhamn 519 Chipper Edger.
18. Belt conveyor for side boards out to sorting line.
19. Roll conveyor with chain kick off system to sorting line.
20. Conveyor after board separator with kick off system for kick off to merry go round system.
21. Cross conveyor for merry go round system.
22. Roll conveyor for merry go round system.
23. Cross conveyor merry go round system for transport in to infeed conveyor before 1st chipper canter band saw group.
24. Band Saw group no. 2. Type AKE 245 – 1500 with 3 bands.
25. Belt conveyor after band saw group no. 2 for transport out to sorting line.
26. Roll conveyor with chain kick off system to sorting line.
27. All electronic, electric and hydraulic equipment belonging to the saw line.
